Apply for: Frontend Developer Position

Dear HR teams,

I am Cao Ngoc Tau and currently, I am a third-year student at Passerelles numériques Vietnam (PNV). Before finding your company is recruiting interns for many different positions. I created several apps by React, Typescript. And my accumulated experience through many projects and a lot of teams in our school. I believe that I am qualified for this position.

After my third year of studying at the school, I have implemented several projects to complete parts of the curriculum, such as Algorithm & Data structure, Databases, OOP, Web Design, System Analysis & Design, and I learned Laravel, React.js, and WordPress. Through the completion of the project, I also have experience working in several groups.

I have acquired not only technical knowledge (HTML5 / CSS3, BOOTSTRAP, JS, PHP, Git, Laravel, React.js, WordPress). But also soft skills in PLT (Professional life training), English skills (I can listen to and read in English quite well, and I can communicate fluently with foreigners in basic conversations). I always try to learn a lot of new technical knowledge if it is not available in the curriculum yet. While studying at PNV and doing extracurricular projects, I have also trained in soft skills, including communication skills (communication, problem-solving, and teamwork), critical thinking skills (critical thinking, creative thinking, logical thinking), project management, and so on. When working in a team, I am responsible for my task and try to accomplish them well. And I also work in harmony with everyone and help everyone in the team solve problems and contradictions.

More information concerning my education and experience is in the enclosed CV, and I would appreciate an interview opportunity with you at your earliest convenience. Should you inquire about any additional information about my application, contact me at (+84) 9 61 61 5935 or email me at tau.cao21@student.passerellesnumeriques.org. I look forward to seeing you and will make the most of every opportunity you give me.

Thank you for your time and consideration.

Yours sincerely,
Tau

Cao Ngoc Tau
